HONDA
CB-350 SUPER
SPORTS

light sportster
with big power,
● easy handling

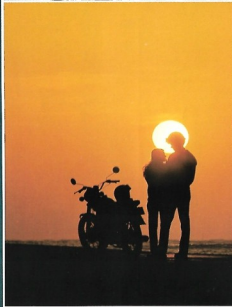

Honda offers the knowing owner the ultimate in riding pleasure and easy-handling performance. This great bike has the power to keep up with bigger bikes hour after hour out on the open road, even riding two-up, yet the size and weight have been kept down to allow easy handling in traffic. This newest model of one of Honda's best sellers has been thoroughly redesigned to offer even more riding pleasure and better styling than ever. And since it's a Honda, you're assured of a comfortable ride, unmatched durability and the very best of safe riding features.

To take the basics first since this is why the knowing rider chooses Honda, the overhead camshaft 4-stroke engine produces a terrific 36 horsepower at a fast-revving 10,500 rpm. The dual carb twin cylinder alloy engine gives really quick acceleration through a close-ratio 5-speed gearbox with vibrationless high speed cruising to make riding in the city or out on the highway simple, safe and satisfying. Electric starter, smooth controls, powerful brakes and the painstaking attention to detail and unmatched workmanship which marks Honda assure the happy owner the ultimate in riding pleasure.

To point out a few of the many improvements in this new model, first of all you'll notice the bigger tank, restyled side covers and neat paint job. Bright new colors, too. You'll spot the tuck and roll seat, the quick release gas cap and the megaphone-shaped mufflers. But you might miss the tripmeter in the separate speedometer. And you wouldn't know about the big ball bearings holding the crankshaft if we didn't mention it.

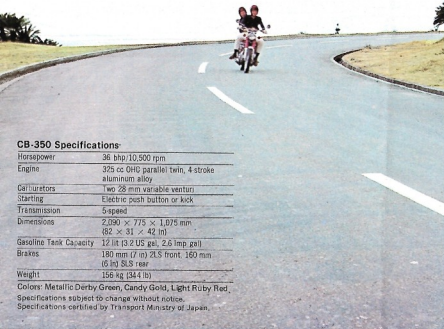

For any rider desiring reliable high speed performance on the road plus quick response in the city, we can heartily recommend this new 350, the biggest bike with light-weight handling.

SUPER SPORTS CB-350

All Hondas have automotive size lamps, easy-to-see turn signals, side reflectors, ball end control levers, powerful brakes and many other safe riding features.

True riding pleasure is you and her and a Honda and a smooth highway
